

Roberto Aguirre

The Backbone

Roberto Aguirre is an owner of the corporation and is the Operations Manager overseeing all operations within the Santa Cruz region including the Buena Vista and Ben Lomond green waste.

Roberto has been with the firm since 1996 starting as a grinder operator and material producer. He has an excellent command of the technical expertise required to run a smooth operation within the wood recycling industry. Roberto has an uncompromising commitment to professionalism within everything he is associated. He truly is the backbone of Vision Recycling. Don't forget to say "Hey" to Roberto if you happen to see him around!

Quick Tips for Early Spring

- *This is a great time for cutting back your ornamental grasses. Old growth can be tied back with twine, and the grass should be cut 4" to 6" from the ground to spur new growth.
- *Fruit trees, evergreens and many (but not all) deciduous trees and shrubs will benefit from being trimmed and shaped now, before new growth begins.
- *Any perennial plants that were left standing over the winter can be cut back now. This will encourage new growth and blooms.
- *Your landscape's appearance can be greatly improved with a thorough edging and weeding of your plant beds.
- *Any trees or shrubs that were planted in the fall will benefit from a long, slow watering once new leaves appear.
- *This is the time to hard prune roses.

Trimming & shaping prior to new growth is beneficial

Master Composters Tour @ Buena Vista Landfill

It's that time of the year again! Vision Recycling is always proud to offer its yearly tour of the Buena Vista Landfill green waste recycling operations for the County of Santa

Master Composter class watching the Grinder from a safe distance!

Cruz Master Composter's class field trip. Last year was probably our wettest yet, as we got hit with an unexpected hail storm! As it dried up we were still able to make it a fun and educational day at the landfill. This year's field trip will happen on Saturday March 21st, 2009. If you are interested in the 2010 Master Composters class please visit: www.compostsantacruzcounty.org And if you are interested in touring our facility, don't hesitate to call us at (831) 479-7857 or email at contact@visionrecycling.com

The Contest Continues...

...as well as the education! Vision Recycling is continuing its Green Waste Recovery driver contest. We started the contest a year ago as a means to help educate drivers & the public on the importance of keeping plastics, glass, etc. out of the green waste bins that are picked up curbside. The driver with the cleanest loads wins! They will be checking your curbside green waste bins more carefully so don't get yours rejected! We were able to deliver some great prizes to the best drivers last December. Help your local driver by making your green bin the cleanest green waste possible. We want to ensure that you get a great, clean, Green product from Vision Recycling!

FREE Mulch!

Come take advantage of our free mulch offer while it lasts! Multiple areas of Santa Cruz County were greatly affected by the fires occurring last summer, making them more vulnerable to erosion during the rainy season.

The County of Santa Cruz and Vision Recycling are offering free Forest Floor mulch to aid the residents of the affected areas in erosion control, but you do not need to be a resident of the area to pick some up for free! There is no limit to how much Forest Floor you can take for free as long as we are offering it. Come by while supplies last! For more information on all of our products please visit our website at www.visionrecycling.com and check out the products page.
