Black Lumber Fines

Description & Process:

Feed Stock: Clean unpainted, untreated dimensional lumber

Particle Size: Material is ground to 2" and screened at 3/8" for unders

Color: Product is colored using Amerimulch water based colorant, Ultra Triple Black. Colorant is made of fine particles (between .1 and 1.0) micron with extremely high density. Low VOC. Colorant is safe for humans and animals.

Texture: 3/8" minus wood chips

Additional information:

Black Lumber Fines are Vision Recycling's 3/8" minus mini wood chips. Black Lumber Fines add a consistent texture to planted areas and provide a solid black backdrop for plants. Use this product like a mulch to conserve water and suppress weeds. The chips are generally smaller than 3/8ths of an inch and are colored using an environmentally safe water based dye.
