## Vision Compost 3/8"

### Description & Process:

**Feed Stock:** Organic green materials, yard trimmings, brush, leaves.

**Particle Size:** Material is ground to 2" before undergoing a thermal composting process.

**Color:** Black to dark brown. Fine textured organic matter

**Certifications and regulations:** CalTrans approved, OMRI certified for organic use, USCC Seal of Testing Assurance, CDFA certification, Meets PFRP, temperatures reach over 130 F for 15 days

**Lab Reports:** Contact Vision Recycling for our latest lab analysis

### **Additional information:**

- One cubic yard of compost weighs approximately 950 to 1150 pounds.
- Vision Comp compost is processed using windrows
- Vision Comp compost acts as a slow release of plant nutrients, increases soil moisture holding capacity, improves soil structure, increases soil organic matter content, increases microbial activity, and improves drainage

**US Composting Council**

**CDFA**
